

# ECONOMETRICA, INC.

*For your regulatory development and economic,  
statistical, and risk analysis needs.*

## GRANTS MANAGEMENT

# GRANTS MANAGEMENT

Both grantees and grantors bear a heavy burden as guardians of public funds. Accountability extends beyond just the financial aspect to encompass performance as well. Econometrika has a proven track record providing comprehensive grants management support to Federal agencies and State and local grantees across the entire grants management life cycle: financial, administrative, and programmatic. Our experience includes helping grantees develop the right internal controls, providing Federal agencies with support to monitor their grantees, and assisting with grant closeout. Our data analysts, economists, and researchers provide added value through our ability to measure the success or impact of a grant program through outcome measurement.

# What You Can Expect From Us

Econometrica's approach to project management begins with client relationships. You—our client—become an integral part of the project team to ensure that emphasis is given to your unique needs. Our goals are to provide you with:

- > The most highly qualified people to staff your project and ensure that you get the results you want—on time and within budget.
- > A single, responsible contact within our firm for each project.
- > Intensive, hands-on oversight from our top management for each account.

We are known for bringing together a corps of exceptionally well-trained experts from a wide range of disciplines and pragmatic experiences. Their advanced educational and professional qualifications enable us to offer you top-quality services. If your project requires additional specialized expertise, we draw upon highly seasoned professionals to augment our staff. Our overarching goal is to provide you always with the best talent for your individual project needs.

# Work Descriptions

## **U.S. Department of Transportation, Federal Motor Carrier Safety**

**Administration:** Comprehensive grants management (redesign and automation of entire grants process, support of grants and program offices through a variety of related services).

## **U.S. Department of Health and Human Services:**

- > ***Office of the National Coordinator for Health Information Technology:*** Pre-award planning, objective review process oversight, post-award monitoring, and grant implementation support.

- > ***Centers for Medicare & Medicaid Services (CMS):*** Performance measures (development of program performance measures in accordance with the CMS Measures Management System Blueprint).

## **U.S. Department of Housing and Urban Development (HUD):**

- > ***Neighborhood Stabilization Program (NSP):*** Grant closeout (collaboration with NSP grantees to close out grant and recapture funds).
- > ***Post-Award Monitoring and Oversight:*** 10 years of technical assistance, compliance, and monitoring support to HUD and grantees.

# Technical Capabilities

Our staff members include grant management experts, performance specialists, policy and budget analysts, economists, statisticians, modelers, financial analysts, and former high-level Federal Government employees.

In addition, we work with a wide range of consultants, subcontractors, academics, and subject matter experts who offer expertise in specific grant programs, performance measurement and monitoring, data analytics, grants systems, accounting and audits, and other areas.

We provide services including, but not limited to:

- > Strategic planning, budgeting, and analysis
- > Business process assessment and improvement
- > Policies and procedures
- > Data, economic impact, and regulatory and policy analysis
- > Performance metrics and monitoring
- > Technical assistance and training
- > Grant processing (eligibility review and selection, issuance, tracking/reporting, internal controls, compliance monitoring, closeout)
- > Financial management and operations (obligations, accruals, drawdowns, reconciliation, closeout)
- > Independent evaluations
