

## ECONOMETRICA, INC.

### CAPABILITIES STATEMENT

# HEALTH GROUP

Econometrica's Health Group supports government and nonprofit clients in solving today's problems in our ever-changing health environment. We work in all aspects of health policy and management, including health research and evaluation, public health, health equity, learning systems and technical assistance, operations, and healthcare quality improvement. Our team members use their deep subject matter expertise to work at the intersection of population health, publicly funded healthcare programs, and strategy to achieve results.

## About Econometrica

Econometrica is a certified small business research and management consulting organization based in Bethesda, MD, that is committed to improving the human condition by providing high-quality, cost-effective analytics and support that enable our clients to solve the challenges of today's world. We collaborate with Federal agencies, State and local governments, and philanthropic and nonprofit clients in the health, human services, housing, finance, and data analytics sectors and partner with other private sector firms. Econometrica started as an organization focused on econometric analysis and now has more than 25 years of proven excellence in consulting. It is guided by a committed group of thought leaders who use a variety of human-centered design methods to provide innovative approaches to help each client with their unique needs.

## Our Capabilities

### Healthcare Quality Improvement

Our experts support clients in improving healthcare quality policy, implementing clinical quality measurement, promoting standards, and adopting quality improvement approaches for government and nonprofit clients.

### Prevention Science and Health Promotion

We work on public health policy and systems improvement, workforce development, health communications, and clinical-community linkages with a health equity lens to help our clients create and evaluate meaningful and effective solutions.

### Operations and Strategy

We provide comprehensive support—financial, administrative, and programmatic—to Federal agencies and State and local grantees on health program implementation and operations. We apply our strategic planning expertise and experience with supporting the operational aspects of managing government health programs to deliver benefit to our clients.

### Learning Systems and Technical Assistance

We recognize the power of scaling up interventions and implementation of new programs and use innovative methods for delivering everything from micro to national learning and technical assistance systems and solutions.

### Research and Evaluation

Our experts conduct program and policy evaluation and quantitative and qualitative research and analysis. We have an in-house Institutional Review Board and deep in-house analytic expertise.
